Fall 2021

CENTRAL PARK

Central Park is the cornerstone of Manhattan. It supports the hectic energy of the city with a peaceful strength that is both calming and renewing. Weitzner's Fall 2021 Collection, aptly named for the iconic park, brings that sensation into its fabrics and wallcoverings. With an exploration of materials and techniques, the collection evokes environments of rambling walking paths, stone structures, flowers, and glistening reflections from waters in both the Reservoir and the Bethesda Fountain. It is a collection that celebrates the natural beauty found within New York City and offers a sense of serenity amidst the chaos.

"Here is the deepest secret nobody knows
(here is the root of the root and the bud of the bud and
the sky of the sky of a tree called life; which grows
higher than the soul can hope or mind can hide)
and this is the wonder that's keeping the stars apart i
carry your heart (i carry it in my heart)"
